INSTALLATION INSTRUCTIONS ROLL BAR TOP TOYOTA FJ-40 '63-'83 PART #222-05X

Thank you for purchasing Specialty's Roll Bar Top for your Toyota vehicle. It has been designed for great fit and long wear. Please read and follow, precisely, all installation instructions provided when installing top. Failure to do so may result in a poor fitting top and could place occupants in a potentially hazardous situation.

TOOLS REQUIRED:

1/8" Drill Bit Electric Drill
#2 Phillips Screwdriver

PARTS LIST:

2 ea Footman Loops
4 ea #8 x 1/2" Sheet Metal Screws
3 ea Sheet Metal Screw Studs

INSTALLATION TIPS

Before you begin installing this top, here are a few tips to make installation easier.

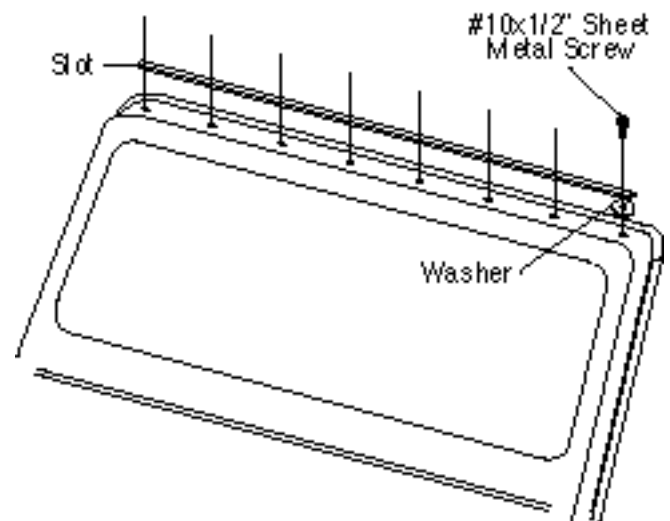

This top should be installed where the temperature is above 72 degrees Fahrenheit. Below this temperature, the top may contract making it difficult to install.

It is normal for a top to contract and wrinkle when stored in the shipping carton. The top will relax and wrinkles will disappear within a few days of installation as fabric adjusts to shape of mounting hardware.

INSTALLATION PROCEDURES:

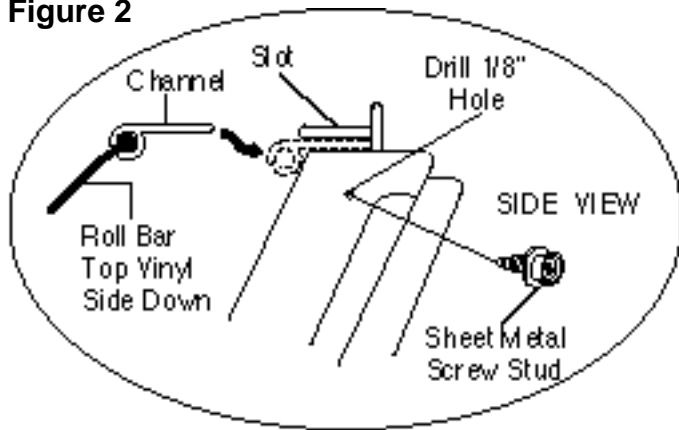

STEP 1. You will need a slot and channel for installation of this roll bar top. If so equipped disregard this step. If not equipped you will need to order part #222-9340 for snap style tops or part #222-9440 for Fast Trac style tops. Place slot on top of windshield frame next to vertical flange and centered from side to side. Mark and drill 1/8" holes using slot as a guide. Secure to windshield frame with #10 x 1/2" sheet metal screws through slot, washers and into windshield frame. See figure 1.

STEP 4. Pull forward and down on straps at front corners of top. Mark hole locations for sheet metal screw studs on windshield frame using snaps on vinyl top as a guide. Drill 1/8" holes. Install sheet metal screw studs and snap top to studs. See figure 2.

CARE INSTRUCTIONS

Convertible tops require special care if you want to get the maximum usage and enjoyment from them. The following recommendations, if followed carefully, can extend the life of your top.

1. Hand wash using a mild non-detergent soap such as Ivory. Use a nonabrasive cloth or sponge. Rinse thoroughly.
2. **DO NOT** wash in direct sunlight and avoid automatic car washes.
3. When your top is clean, we recommend using "303 Protectant" on both the vinyl top and windows. This product contains a sunscreen that helps protect from the sun's damaging rays.
4. When top is not in use place in storage bag provided.
